

June 1 – 3, 2015 · Vienna, Austria

ACM SACMAT Symposium 2015

The ACM Symposium on Access Control Models and Technologies (SACMAT) is the premier forum for the presentation of research results and experience reports on **leading edge issues of access control**, including models, systems, applications, and theory.

The aims of the symposium are to **share novel access control solutions** that fulfill the needs of heterogeneous applications and environments, and to **identify new directions** for future research and development.

Keynote Speakers

Trent Jaeger

(Pennsylvania State University, US)

Challenges in Making Access Control Sensitive to the "Right" Contexts

Bart Preneel

KU Leuven, Belgium

Post-Snowden Threat Models

Register now – Early Bird fee until **May 15, 2015!**

<https://sacmat.org>

Enjoy Vienna!

Sightseeing ride with a vintage tram to "10er Marie", the oldest wine tavern in Vienna (1740) and location of the Mayor's Reception

Conference Dinner on a private vineyard with a view over Vienna and its surroundings

Highlight: Plant your own little grapevine!
